

Millions of British jobs are at risk

Only the Lib Dems will protect British jobs

UKIP and many Conservatives want to gamble away millions of jobs by pulling Britain out of the EU. They want to put politics before people's livelihoods and our nation's future.

UK business leaders like Richard Branson and the heads of big manufacturers like Nissan and Ford are horrified by the idea of an EU exit. A CBI survey showed that 8 in 10 businesses say Britain must stay in the EU.

With Labour silent on Europe, only the Liberal Democrats are leading the fight to keep Britain in the EU and protect British jobs.

Lib Dem MEP Bill Newton Dunn said, "The East Midlands benefits hugely from our EU membership and 100,000s of jobs across the region depend on being in the EU. We can't put all this at risk by pulling Britain out of Europe."

Bill Newton Dunn believes strongly in giving young people the best start in life. Lib Dems in Government have delivered over 110,000 new apprenticeships in the East Midlands.

Bill Newton Dunn

Delivering for the East Midlands

Bill Newton Dunn is Britain's longest serving and most experienced MEP. He has been fighting for the East Midlands in Europe for over 30 years. Bill knows how to make Europe work for the East Midlands.

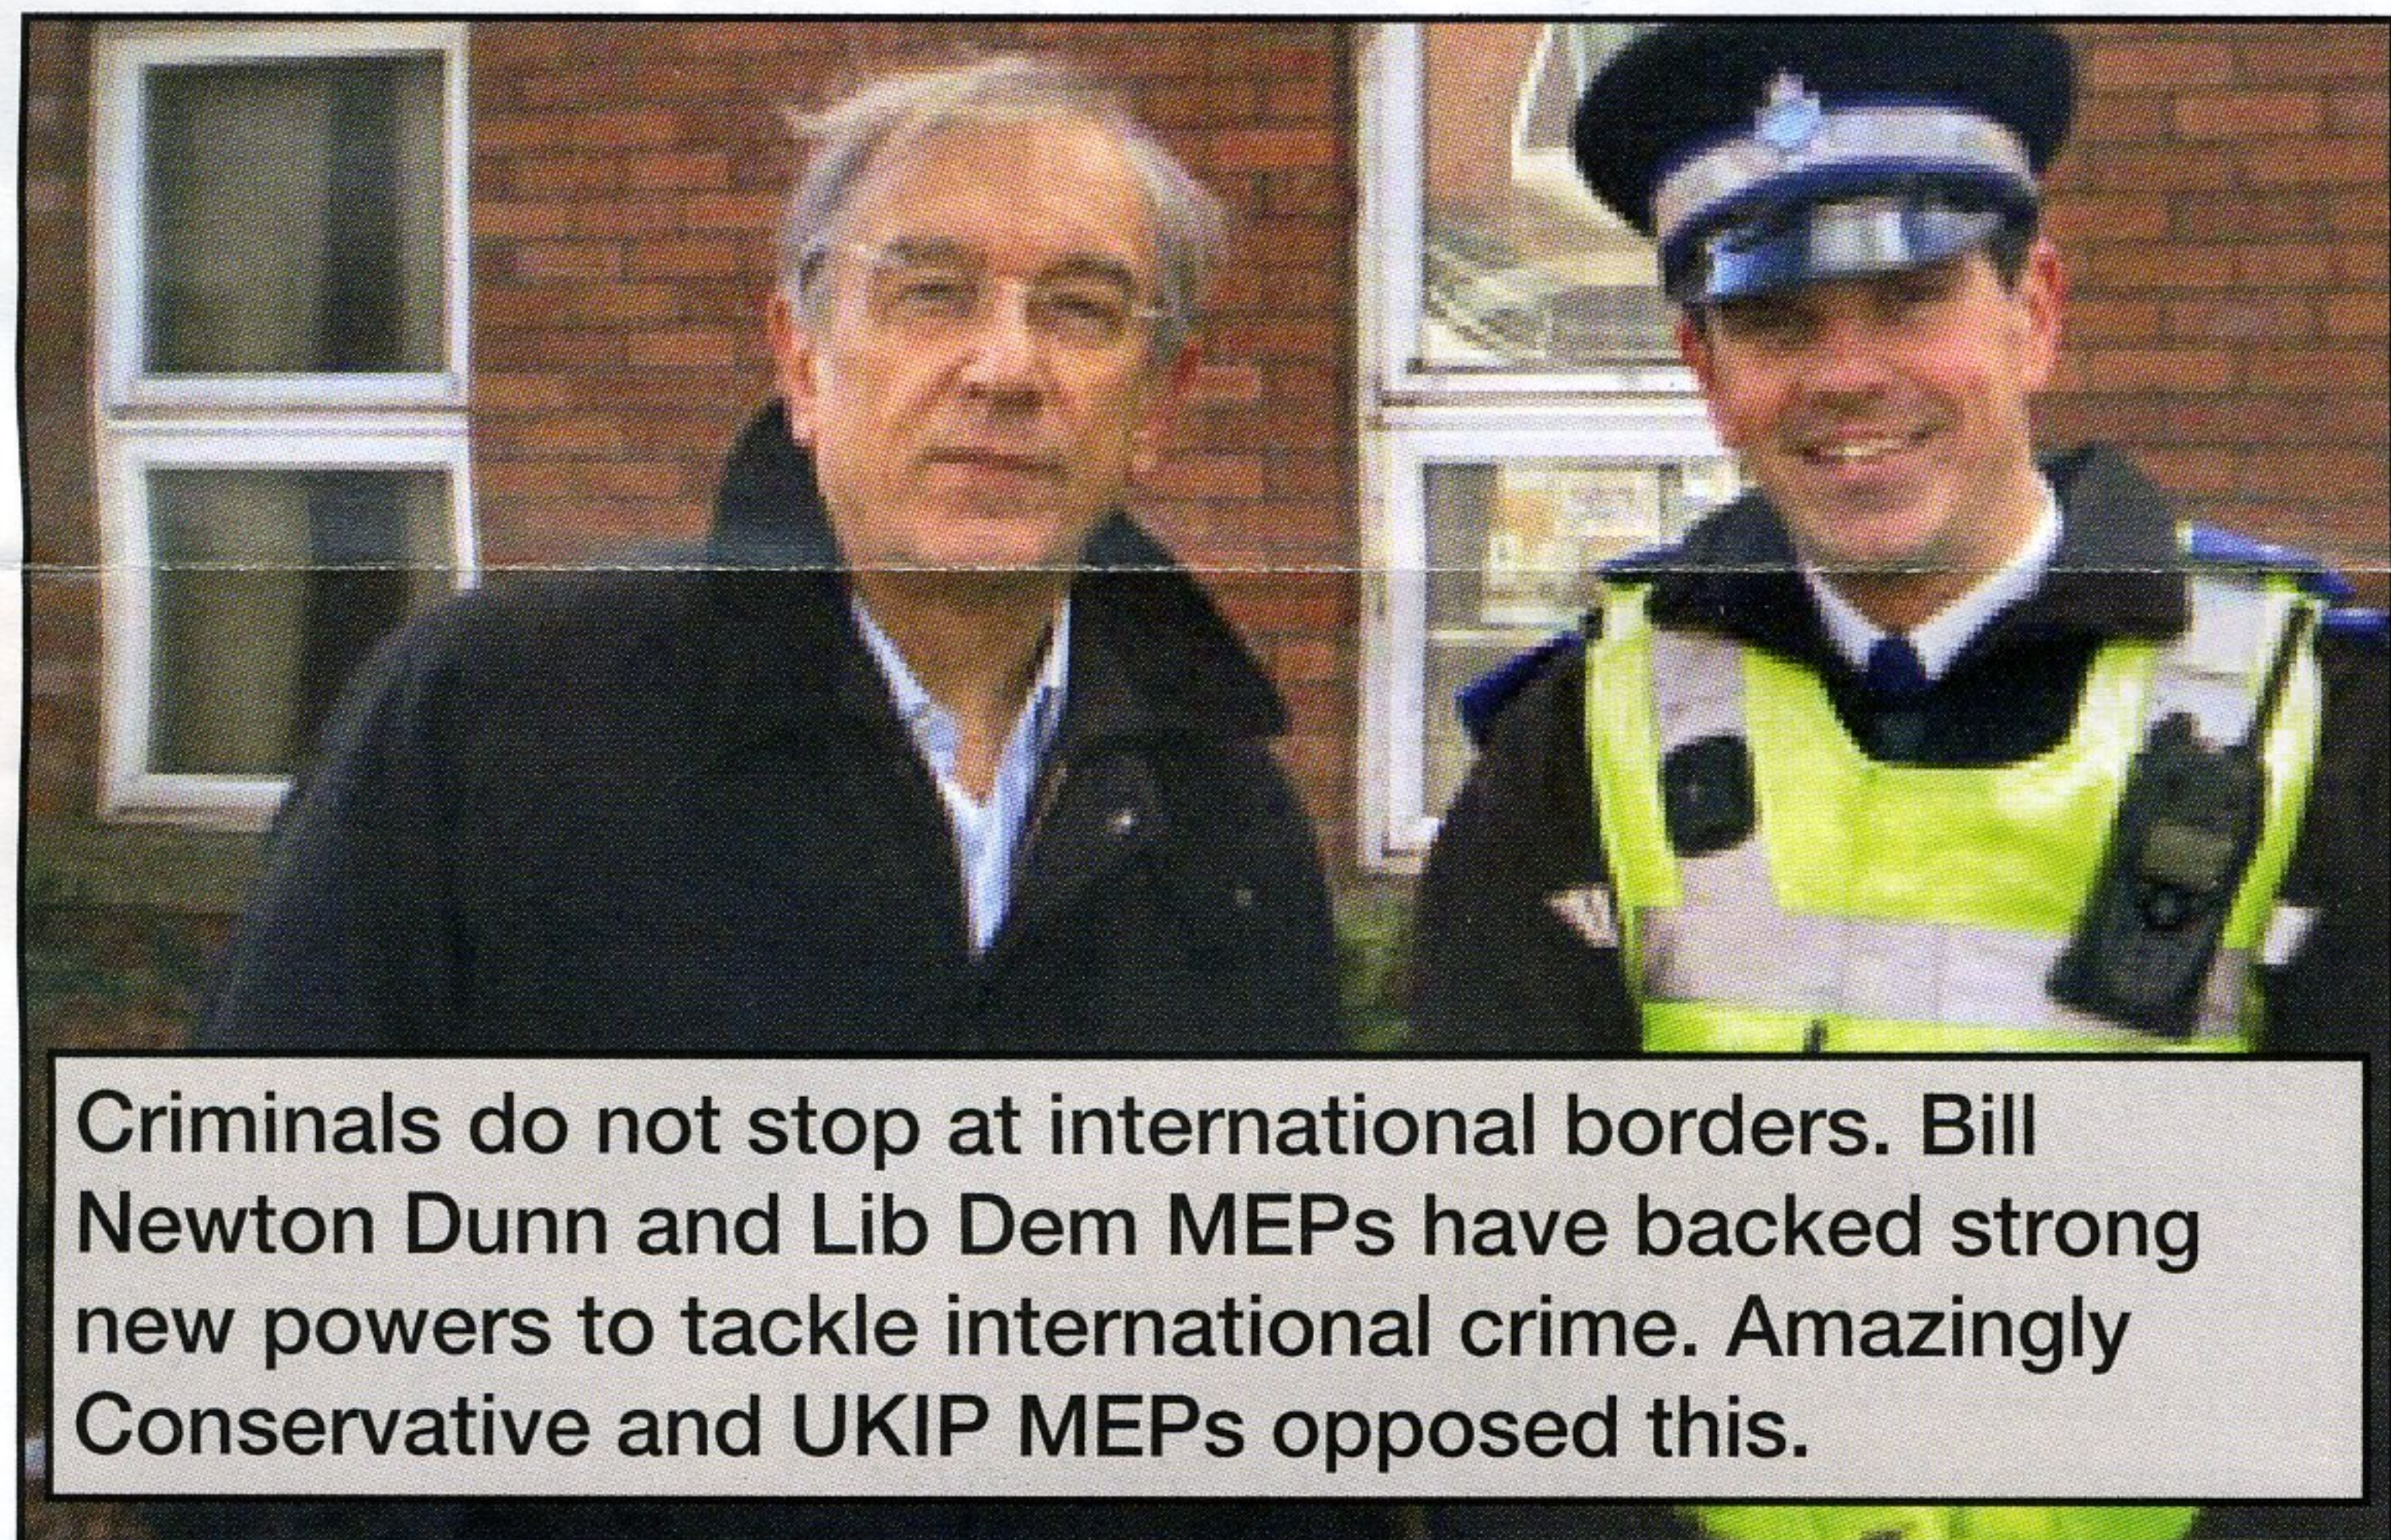

Bill says, "The EU isn't perfect and needs reform but over 3 million jobs rely on Britain's membership of the EU. UKIP and the Conservatives want us to withdraw putting these jobs at risk. If I'm re-elected then fighting to bring jobs to the region will remain my top priority."

In this election every vote will count. The Lib Dems have selected a strong and experienced team to fight the european elections in the East Midlands.

Criminals do not stop at international borders. Bill Newton Dunn and Lib Dem MEPs have backed strong new powers to tackle international crime. Amazingly Conservative and UKIP MEPs opposed this.

Climate change also doesn't stop at borders. That's why the Lib Dems have been leading the efforts in Europe to tackle climate change. Bill Newton Dunn helped secure a Europe-wide agreement to a low carbon economy.

Back our campaign to protect British jobs

The Lib Dems are the only party standing up for Britain's continued membership of the EU. The Lib Dems believe that keeping Britain in Europe is vital to protect the recovery and deliver long term economic growth. Over 3 million jobs in the UK depend on the EU.
