“ **We need to build a United States of Europe with the Commission as government.**  
Viviane Reding, EU Commissioner, Jan 2014 ”

A recent poll that found 77% of people\* wanted to see a reduction in immigration to the UK has only touched on the many problems we face through our membership of the European Union.

We have no control over our borders, but we also have no control over who we trade with, how much we pay to heat our homes and feed our families or how we just get on with our lives.

Commissioner Reding let the cat out of the bag when she admitted the plan was to create a United States of Europe. That's despite what the people of Europe actually want, not that any of the political elite in this country or in Brussels really care about that.

The EU costs the UK £55 million a day just in membership fees, leaving a significant hole in the public purse, while the damage done to our national sovereignty, our pride and - dare I say - our patriotism is immense.

Only UKIP is prepared to say, 'Enough's enough'. Only UKIP is prepared to pull out of the EU and rebuild a better relationship with Europe.

That's why I'm asking for your vote for UKIP in the elections on May 22nd. Let's get our country back.

  
Nigel Farage MEP  
Leader, UKIP

# Facts at your fingertips

**We're a major global player**

**The UK is the 6th largest economy in the world - and a top 10 manufacturer. Who says we can't survive without the EU?**

## **We're likely to have MORE jobs after we leave the EU.**

The EU isn't our future; it's shrinking as a world player. The UK is already the world's 6th largest economy and a top 10 manufacturer.

Outside the EU, our economy could grow faster, creating more jobs.

The idea that 3m jobs would be risked by leaving the EU is just a big lie.

The EU won't stop trading with us: we're one of France and Germany's biggest customers, and they sell us far more - £50 billion more - than we sell them every year.

## **Food and fuel will be CHEAPER outside the EU.**

It's been estimated that each family could be at least £400 a year better off without the EU's agricultural and fisheries policies to contend with.

And by cutting the EU-inspired green taxes and regulations we could cut energy bills by hundreds of pounds a year, too.

## **We'll SAVE enough to mend our economy for our children.**

Our EU 'membership fee' is around £55million A DAY, and altogether it's

# about Britain and the EU

reckoned the EU costs us around £165 billion a year. That's bigger than the UK's budget deficit that George Osborne is struggling to fix. So if we cut out the costs of the EU, we could pass on a healthier economy to our children and grandchildren.

## **We can tell the European Court of Human Rights where to go.**

The UK has a proud tradition of liberty and freedom. If we leave the EU, we can also withdraw from the European Court of Human Rights.

Then we can deport foreign criminals (even if they have a cat); we won't have to give votes to prisoners; and we can give whole-life sentences to the worst criminals.

## **We can TRADE with the world, not subsidise it.**

The Conservatives, Labour and Liberal-Democrats (and Greens, SNP and Plaid Cymru) all want the EU to get bigger and bigger.

That's why they're already giving your money to countries like Turkey, Serbia, Albania, Armenia, Libya, the Ukraine...

Only by being outside the EU can we negotiate our own global trade agreements. The Commonwealth would be a good place to start.

**And, of course,  
we'll be able to  
control immigration...**

**We're one  
of the EU's  
best  
customers**

**Anyone who  
says that  
3m jobs are  
at risk if we  
leave the EU  
is simply  
telling a big  
lie.**

**Love  
Britain.  
Vote  
UKIP.**

# **4,000 people a week come to live in Britain from the EU\*.**

- **In the EU, we can't control our own borders**
- **Unlimited immigration costs British jobs**
- **Cheap labour pushes down British wages**
- **Schools, health, welfare are under pressure**

**Enough's enough.**

## **Vote UKIP on May 22nd**

\*Office of National Statistics, 27 February 2014
